

CONTINUOUS REFILL IRONING SYSTEM

VVX 1885

EXTRA IRON MAT

Ideal to rest the iron on the ironing board. For even more comfortable use

VVX 1885DualVap

- Dual Thermolon soleplate
- Double on/off iron and boiler buttons
- DualVap: Steam Tip and all the whole soleplate
- Lock system for safe transportation
- Steam Ready in only 2 minutes
- Steam production: 120g/min
- Steam tip: 200g
- Eco-Zone
- 5 bar pressure in boiler for professional results
- Regenerating resins to reduce calcium deposits drastically
- BOILER CLEANING CAP: the special cap allows a thorough rinsing, thus reducing calcium deposits, for a longer life of the appliance
- Continuous refilling for an unlimited autonomy
- Stainless steel boiler for a longer life cycle of the system
- 0.8 litre removable water tank
- Vertical steam emission to iron curtains, coats, etc.
- Removable mat for comfortable ironing
- Safety thermostat
- Possibility to wrap the power cord and steam cord for easy storage and transportation
- Trigger emission buttons are safely held by both left or right hand users.
- Power 2200W

DUAL THERMOLON

Patented Dual Thermolon: the latest generation, technology, Thermolon, assures superb slidability, extreme scratch resistance and optimal heat distribution on the soleplate, for excellent ironing results

DUALVAP SELECTOR

Double steam option: super concentrated turbo steam tip and a gently but efficient steam from the whole soleplate

ECO ZONE

Energy and water saving up to 35% maintaining the desired performances

Extra safety is guaranteed thanks to the lock system, that keeps the iron Strongly fixed on its base

TECHNICAL DATA

Iron dimensions (w x d x h)	mm	270x142x124
Boiler dimensions (w x d x h)	mm	352x243x208
Weight	kg	5,5
Maximum input power	W	2200
Boiler input power	W	1400
Iron input power	W	800
Rated voltage/Frequency	V-Hz	220/240-50/60
Tank capacity	cc	700
Iron	Domestic	
Soleplate	Dual Thermolon
